Dear Colleagues,

This year, REC is observing Vigilance Awareness Week from 30th October to 4th November 2017. The idea behind observing vigilance awareness week is to reaffirm our commitment to transparency, accountability and responsibility in our day to day working so that discretion is minimized and fairness is ensured. As per the directives of Central Vigilance Commission (CVC), “My Vision-Corruption Free India” has been chosen as the theme of Vigilance Awareness Week this year.

In today’s dynamic scenario, only those organizations that are efficient and manage their resources efficiently can achieve success on a sustained basis. So, it is the responsibility of each employee of the Corporation to ensure transparency, fairness, accountability and objectivity so that the Company’s resources are optimally utilized and leakages minimized. The main focus of Vigilance in REC is preventive. Many good initiatives have been taken at the instance of the Vigilance Division for enhanced transparency and accountability in our working. These include implementation of E-procurement, E-Reverse Auction, ERP, IT based Bill Tracking System, File Tracking System etc.

To ensure ethical values are ingrained permanently in the minds of young generation and to inculcate moral values, REC is establishing “Integrity Club” in around 50 Schools across our country under the supervision of Vigilance Division. I wish this new initiative a grand success.

The Vigilance Division during this awareness week will be organizing various programmes like lectures, essay writing, just a minute, painting, etc to increase awareness among the employees as well as the public at large. Apart from these, debates at school and college level are also being organized. I expect all employees and their family members to actively participate in the programmes being organized during the week with full zeal and vigor and make it a grand success.

To,

All Officers and Staff of REC

P. V. Ramesh
