2. OVERVIEW AND RATIONALE

2.1. The overview and rationale for the proposed Merger is as below:

Overview of proposed Merger

- (a) With the objective of achieving scale and improving efficiency in public sector NBFCs, the Hon’ble Finance Minister announced the proposal to restructure PFC and REC in the Union Budget presented on February 01, 2026.
- (b) Pursuant to the above announcement, the Boards of PFC and REC, at their respective meetings held on February 06, 2026, accorded in-principle approval for restructuring in the form of a merger of PFC and REC, while ensuring that the merged entity continues to remain as a "Government Company" under the Companies Act and other applicable laws.
- (c) Subsequently, at the Board meeting of PFC and REC held on May 16, 2026, the Boards of PFC and REC reserved the proposed merger of REC into PFC for the approval of the Hon’ble President of India. In this regard, Ministry of Power vide its letters dated June 10, 2026, has conveyed the approval of the Hon’ble President of India to PFC and REC.
- (d) While it is contemplated that the shareholding of Government of India will fall below 51% (Fifty One Percent) through the proposed Merger, the Government of India proposes to invest, directly and/or indirectly, further capital in the Transferee Company to increase its shareholding and ensure that: (i) the merged entity remains a 'Government Company' under the provisions of the Companies Act; and (ii) the Government of India retains majority voting rights and control, directly or indirectly, in the merged entity.
- (e) Retention of Government Company status is critical to preserving sovereign-linked funding access, business continuity, Government scheme implementation, and existing financing arrangements. The proposed capital investment will ensure continued Government ownership and control, reinforcing stakeholder confidence, institutional stability, and the merged entity’s position as a trusted sovereign-backed financier, while supporting its sustainable business model and long-term value creation for all shareholders.

Need and Rationale of Proposed Merger

The merged entity would emerge as the Government’s principal institution for implementing power sector reforms and flagship programmes, serving as the primary vehicle for translating national policy objectives into measurable sectoral

outcomes. By leveraging its enhanced scale, financial strength, and institutional capabilities, the merged entity would maximise the effectiveness, reach, and impact of Government initiatives, thereby accelerating the development and transformation of the power sector.

- (g) As India moves towards the ambitious goal of Viksit Bharat 2047, the power sector will require substantial capital investment. On a consolidated basis, the merged entity is expected to benefit from improved balance sheet strength, stronger capital base, and higher operational efficiencies, enabling large-scale funding and improved credit flow across the power sector value chain.
- (h) The merged entity would serve as a key financier of India's energy transition and strategic infrastructure buildout, supporting generation, transmission, distribution, renewable energy, and next-generation technologies such as green hydrogen, energy storage, small modular nuclear reactors, and grid modernization. Combining greater scale, technical expertise, and sector knowledge, it would be better equipped to deploy capital and capture opportunities arising from these emerging growth areas.
- (i) With enhanced scale, diversified exposure, and deeper sector expertise, the merged entity would strengthen market confidence by improving project bankability, enabling more effective risk sharing, accessing longer-tenor capital, and structuring complex infrastructure financings with greater resilience and stability.
- (j) The merger will strengthen the balance sheet, improve borrowing capacity and financial flexibility. By combining credit lines, improving credit metrics, and expanding capital access channels, the merged entity can support more competitive pricing for customers, easing funding constraints for critical infrastructure and enabling a greater credit flow across the power sector and the broader economy.
- (k) The merged entity would become the primary vehicle for implementing a majority of government schemes for the power sector and would maximize sector benefits through these programs.

Synergies of the Merger

- (l) The merger will establish a single, larger listed platform with a simplified corporate and shareholding structure. By bringing governance, risk management, internal controls, and reporting under a common framework, the merged entity will enhance transparency, strengthen accountability, simplify compliance, and reinforce investor confidence.
- (m) By combining the strengths of both institutions, the merger will unlock revenue and cost synergies through the integration of operations, processes, technology, and support functions. This will create a more efficient operating model, improve cost discipline, and strengthen execution capabilities across the business.
- (n) The merged entity will operate under a unified strategic and capital allocation framework, enabling a more coordinated approach to business development and investment decisions. This alignment will support the efficient deployment of resources across the power sector value chain and strengthen overall strategic focus.
- (o) By bringing together a broader talent pool, deeper sector expertise, and collective institutional experience, the merger will strengthen organizational capability and

leadership depth. The combined organization will be better positioned to execute complex transactions, manage risks effectively, and support long-term growth at scale.

- (p) REC's regional network and training infrastructure will provide the merged entity with broader market access, deeper stakeholder engagement, and stronger project origination capabilities. At the same time, a shared operating platform will support workforce development and drive efficiencies across the organization.
- (q) The integration of institutional capabilities, systems, and risk management practices will strengthen credit appraisal, portfolio oversight, and asset quality management. A more unified operating framework will also enable faster decision-making and more effective resolution of stressed assets, supporting disciplined and sustainable growth.

2.2. While it is contemplated that the shareholding of Government of India will fall below 51% (Fifty One Percent) through the proposed Merger, the Government of India proposes to invest, directly and/or indirectly, further capital in the Transferee Company to increase its shareholding and to ensure that: (i) the merged entity remains a 'Government Company' under the provisions of Companies Act; and (ii) the Government of India maintains majority voting rights and control, directly or indirectly, in the merged entity. It is critical for the merged entity from the lending perspective for conduct of the merged entity's business operations and to ensure that the merged entity continues to act as nodal partner for implementation of various government schemes. It is also critical from borrowing perspective to ensure that existing borrowing covenants and contractual arrangements remain unaffected. Further, continued Government ownership and support are integral to maintaining the sovereign linkage in the merged entity's credit profile, which facilitates access to competitively priced funding to support the financing requirements of the power sector.

2.3. The Merger would therefore be in the best interest of the shareholders of the respective Parties to the Scheme and shall not in any manner be prejudicial to the interests of the stakeholders including shareholders concerned or the creditors or general public at large.

2.4. Accordingly, to achieve the abovementioned benefits, the Boards (*as defined hereinafter*) of each of the Parties have decided to make requisite applications and/or petitions before the Central Government/ Governmental Authority (*as defined hereinafter*) as the case may be, as applicable under Sections 230 to 232 of the Companies Act, and other applicable provisions of Income Tax Act, LODR Regulations and this Scheme.
